XILLO
INNOVATIVE RECESSED SOLUTIONS

www.xillo.be

COMPANY

Tense is the Belgian designer and manufacturer of elegant design switches, room controllers with OLED display and motion detectors. Furthermore, we offer socket frames and iPad holders in the same materials that match our product line to create a uniform look in your interior. All Tense design products can be flush-mounted thanks to the unique Xillo fixtures. The products are KNX compatible or can operate on 12-24V DC.

12-24V
DC

Tense combines more than 20 years of experience in home automation, electronics manufacturing and lighting. As being an ISO 9001 certified company, Tense always aims to exceed its customers' expectations of top quality, innovative R&D, unbeatable service, in-time delivery and professional export handling.

PRODUCTS

These high-quality products are stylish, easy to use, very reliable, designed with passion and were crowned by winning several design awards. Only the best technologies and premium raw materials are used to create our unique Tense products.

DESIGNED, MANUFACTURED & HANDMADE IN BELGIUM.

Intensity

The Intensity is a stern switch which beautifully combines functionality and elegant design. These switches are capacitive-touch based.

What kind of **finish** would you prefer? All of the following **materials** are available for the **Intensity**:

Metal Glass Corian® Stone Wood Composite

This makes the Intensity the most wanted element in any interior and is **user-friendly** due to the easy operation capabilities.

The Intensity is available with 1, 2, 4 or 8 touch zones.

Supported systems

KNX INTEGRATION

Every KNX Intensity has four functions:

1. Touch:

- Every touch zone has a **double function** with both **short** and **long** touch capability
- Touching at least two buttons at the same time activates the **multi-touch** which has both a short as a long multitouch function, e.g. for an Intensity with 4 touch zones, this adds up to 10 touch functions.

2. Temperature:

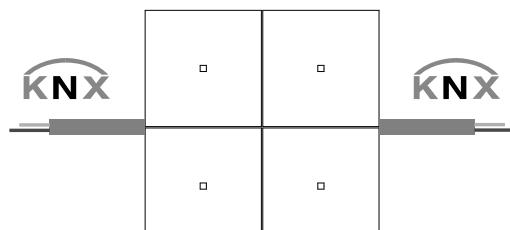

- Thermostat function through its built-in temperature sensor or by connecting an external KNX temperature sensor.

3. LED feedback:

- All switches have **individual dimmable RGB LED feedback** per touch zone, which can be customized according to your wishes via the ETS software of KNX.

4. Other functionalities:

- Dimming, blind control, shutter control, scene module, timers, basic logic functions, up/down counters.

EXTERNAL SYSTEM INTEGRATION

Potential Free Normal Open Contact - 12-24V DC

Every NOC Intensity has two functions:

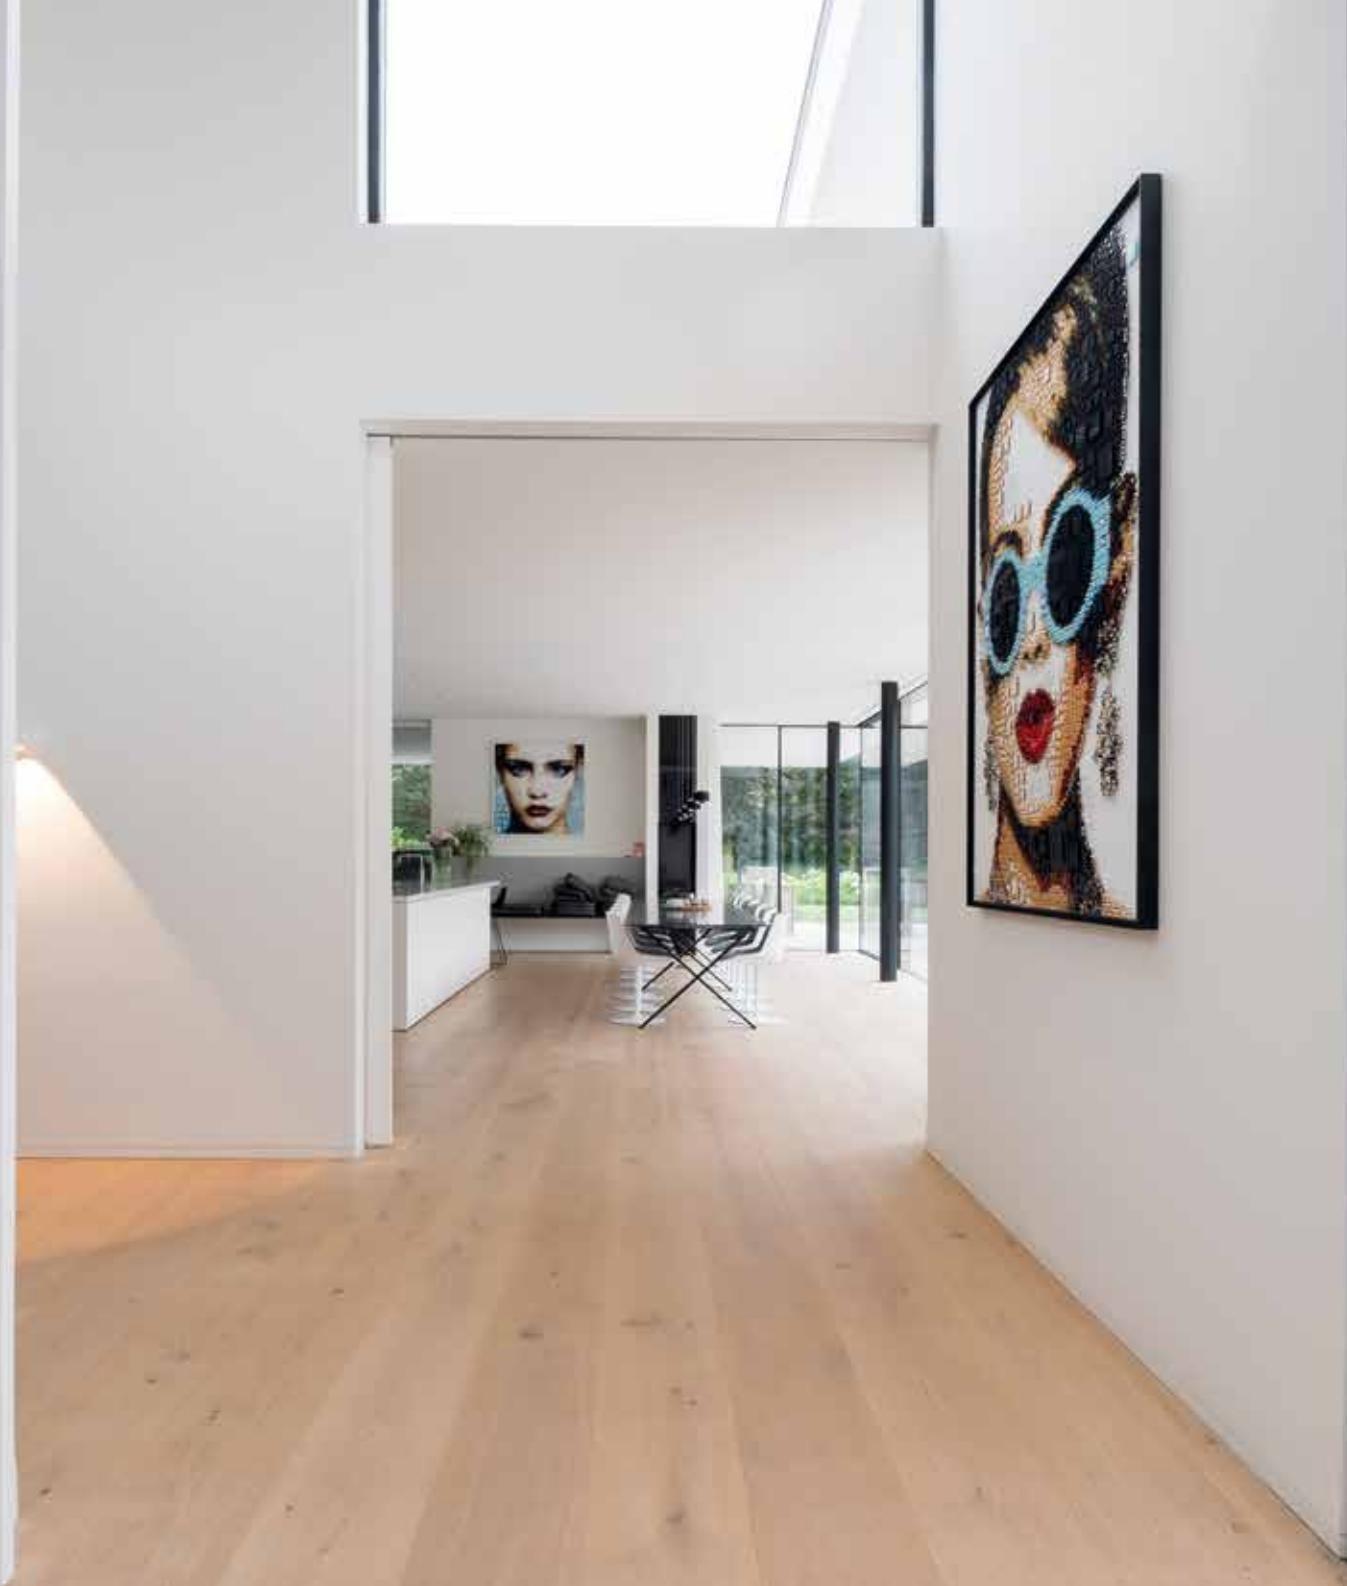

1. Touch:

- The processing of the generated touch signals depends on the connected third party input module.
- **Multi-touch** output is supported without separate channel.

2. LED feedback:

- Switches have **individual white LED feedback** per touch zone, which is adjustable in 2 settings:
 - When untouched, 70% brightness from the white LED is shown.
When touched, the white LED will light up to 100% brightness.
 - When untouched, no LED brightness is shown.
When touched, the white LED will light up to 100% brightness.

INTFBL

Bronze
INTB

Forged Bronze
INTFB

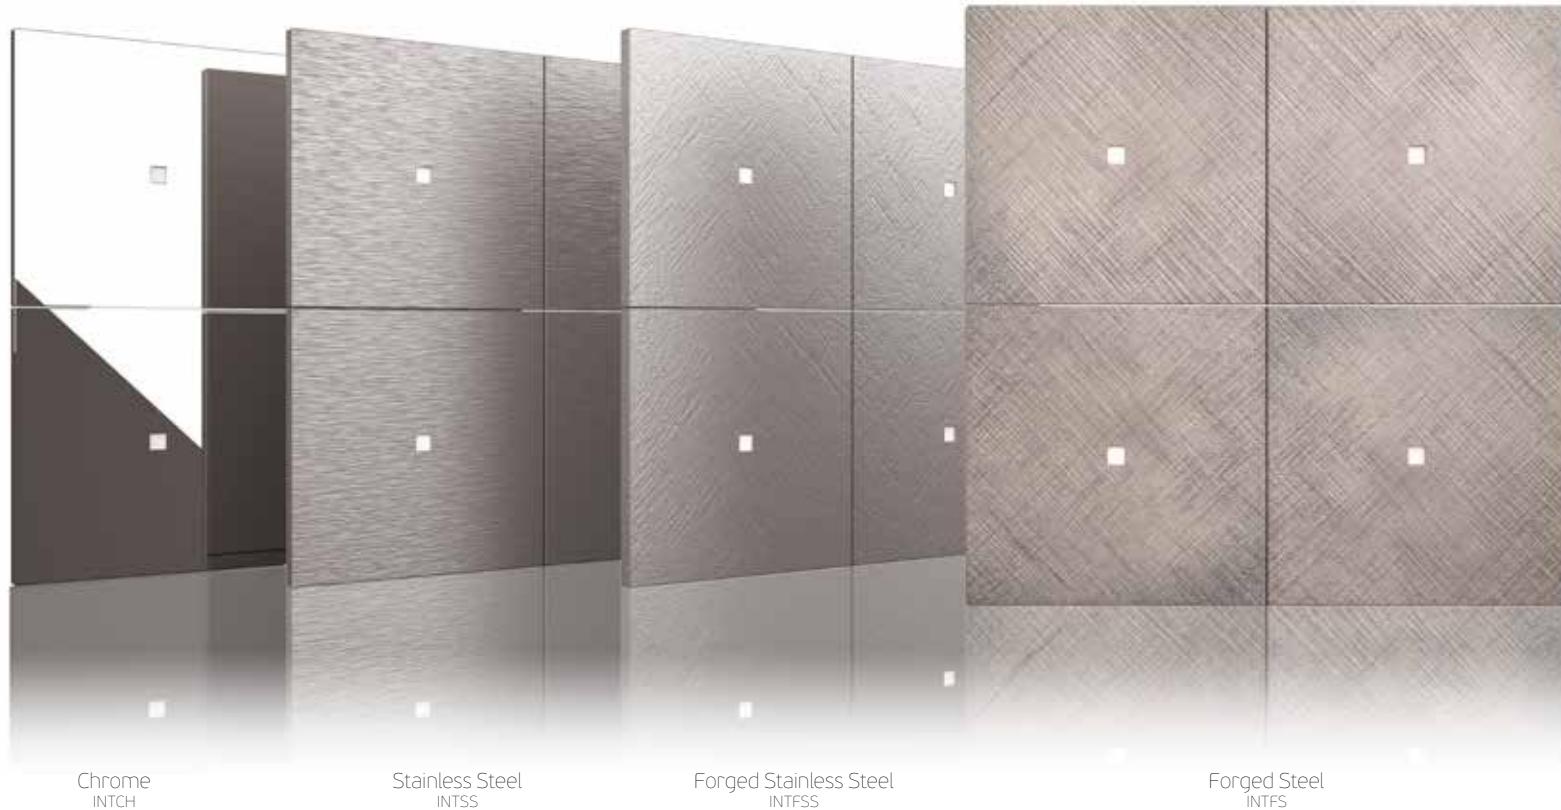

Intensity bronze

The stylish bronze and bronze light finishes are achieved by a long-established bronzing process of brass raw material, which honours the craftsmanship that has existed for decades.

Bronzing is an artisanal process, therefore colour variations may occur. These finishes are protected with a semi-matte varnish.

These are all handmade products which makes every switch unique. Admire the deep living colour of the bronzed brass.

Intensity metal

These finishes induce an **extraordinary look and feel**. The chrome look has been obtained as the result of a craftsmanship process where stainless steel is polished. The Forged Steel finish gives an **old industrial and rough look**. These finishes are protected with a semi-matte varnish. These are all **handmade products** which makes every switch unique.

Forged Gold
INTFG

Brushed Gold
INTBG

Intensity gold

These finishes induce an **extraordinary look and feel**, your switches can either **blend in or stand out**.

These finishes are protected with a semi-matte varnish.

These are all **handmade products** which makes every switch unique.

Brushed Copper Rose
INTBCR

Forged Copper Rose
INTFCR

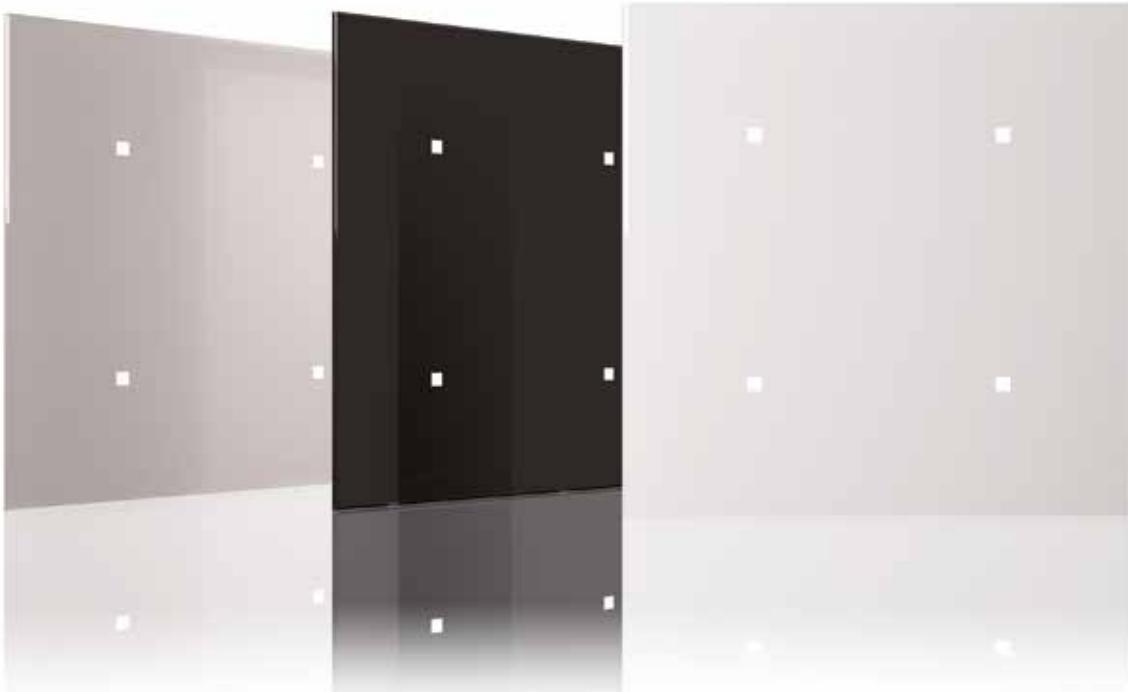

Intensity copper rose

Looking for an elegant and **trendy touch** in your interior? Then Copper Rose is definitely a must have. This stylish finish is an **eye-catcher** in any contemporary interior. These finishes are protected with a semi-matte varnish. These are all **handmade** products which makes every switch unique.

Intensity Landscape

The Intensity Landscape switch, specially designed for the Blue Lagoon Hotel***** in Iceland, consists of 1, 2 or 4 touch zones.

This switch is available in **all kinds of metal** and is ideal for customizations such as engraving, lasering or printing.

These are all **handmade products**, hence makes every switch unique.

INTINV4
Invisible

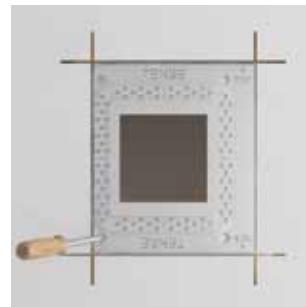

TRIM_SWITCHMCWINV124_P
Trimless Switch Metal Corian Wood Invisible 1, 2, 4F Plasterboard Wall

Plasterboard wall (12,5 mm)

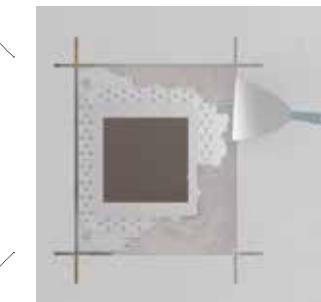

TRIM_SWITCHMCWINV124_P & INTINV4

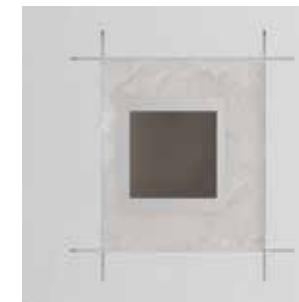

Cut a 225 x 192 x 65 mm rectangular hole in the wall and install 2 wooden planks

Screw the fixture on the wooden planks by using 4 screws

Add fiberglass netting and plaster up to the rounded second level

Smoothen with a sanding machine

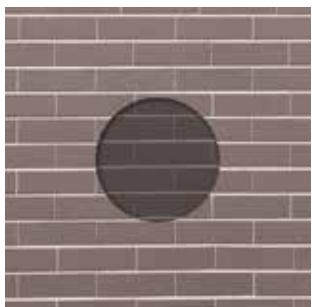

Paint the wall and the switch

Spray a matte water-based varnish on the switch to protect it and make it cleanable

Brick/Concrete wall (6 mm)

TRIM_SWITCHMCWINV124_BC & INTINV4

Drill a Ø 145 mm hole in the wall

Screw the fixture on the wall by using 4 plugs and screws

Intensity Invisible

This innovative recessed Invisible 4 fold switch with dimmable RGB feedback in the corners is fast to install (glued or screwed via pre-drilled screw holes/large mounting surface to easily adjust) and **easy to plaster** thanks to the rounded second level in the Xillo fixture. The Invisible meets the **highest finishing standards**, is **suitable for all surfaces** and is available in 6 mm and 12,5 mm thickness.

For the Invisible, the Trimless wall box has to be ordered separately.

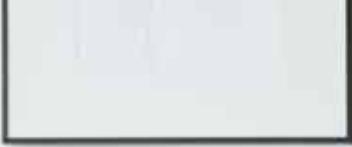

Intensity Wallpaper

Do you like to blend in your switch on a wallpaper wall? This front is made of a special composite material and the sides can easily be painted in any colour; matching the wall or interior.

Wallpaper, wood veneer, leather, fish skin, cork and other materials of a thickness up to 0,5 mm can be glued in the cut-out.

INTWP4
Wallpaper

INTP4
Paintable

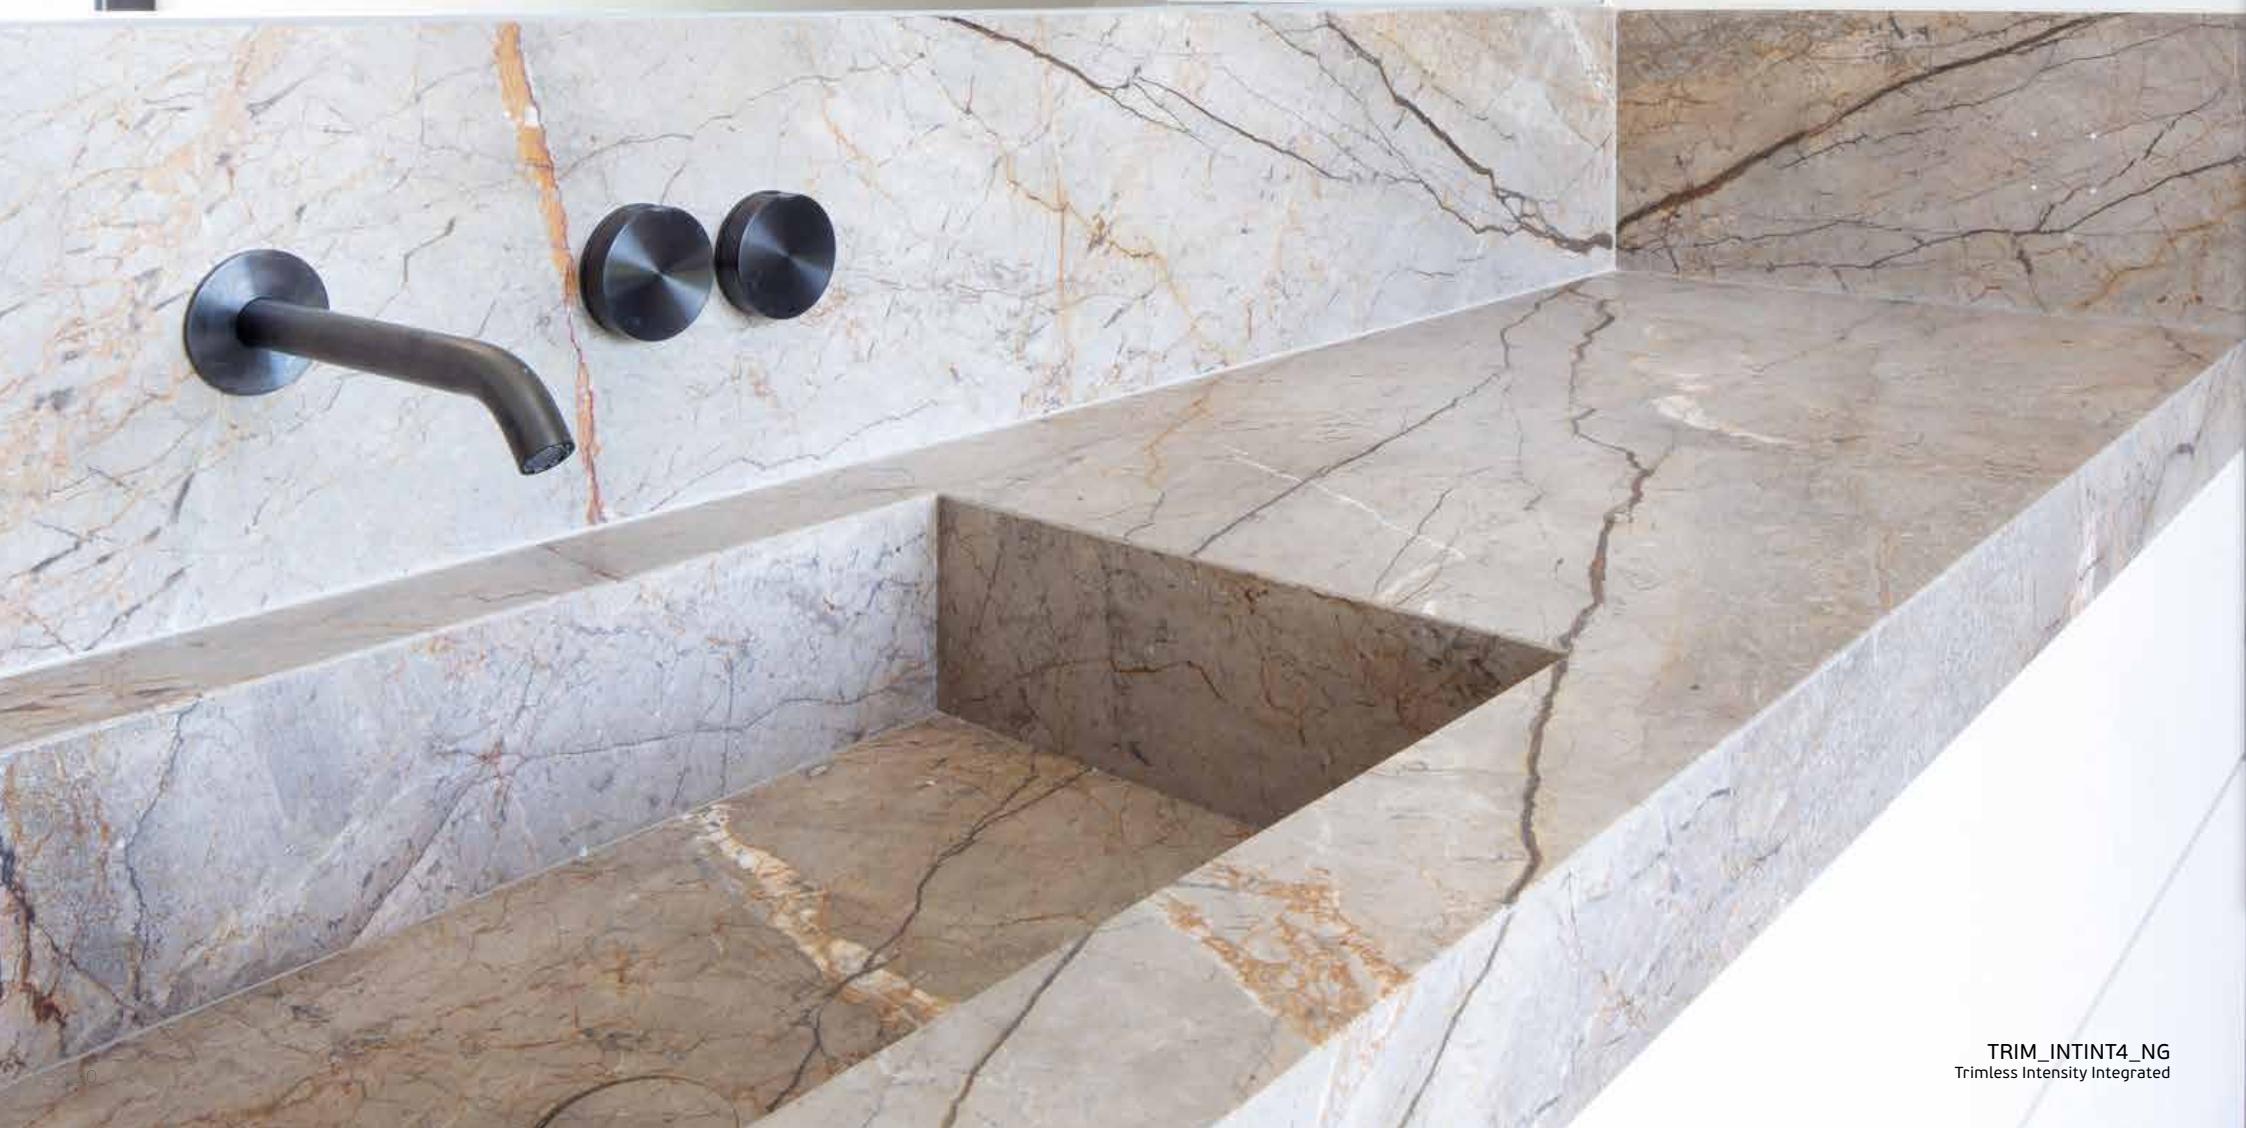

Intensity Paintable

Do you like to subtly integrate your switch in your interior? Just paint the front and the switch is almost invisible. This front is made of a special composite material which can easily be painted in any colour matching the wall or interior.

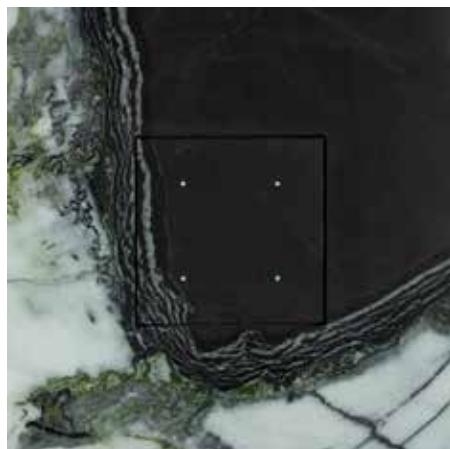

For protecting the switch, a matte water-based varnish can be sprayed over the paint.

Intensity Integrated

Tense can now provide you with the electronics and special wallbox to be placed behind a Glass, Corian®, Stone, Ceramic or Wooden wall.

This way a foolproof installation of any integrated switch is possible: with gap, no gap, invisible...

Furthermore, we can guide you with the instructions and dimensions regarding the cut-out on the back of those materials.

The Infinity is more than a capacitive touch based switch. It opens a box of possibilities on top of what the Intensity switch can do.

Thanks to its **smart OLED display**, functions are numerous and your switch becomes a complete **room controller**.

Would you like to control your audio? Check energy readings? Or do you like to have text feedback concerning, e.g. the thermostat function? The Infinity does it all.

On top of that, the **Infinity** comes in the same range of **materials** as all the other products in the Tense range:

Metal Glass Corian®

The Infinity combines the stern designer look whilst incorporating all the extra functionalities of a complete room controller. All these functions are set through the **ETS software** of KNX.

This switch is available with **4 or 8 touch zones**.

Every KNX Infinity has **three functions**:

1. Touch:

- Every touch zone has a double function with the **short** and **long** touch capability.
- By a **short multi-touch** you display the **extra information page**.
- By a **long multi-touch** you enter the **main menu** (e.g.: lights, shutters, blinds, curtains, multimedia, thermostat, motors ...) and you navigate the **main menu** by sliding the upper two buttons. You navigate the **sub menu** by horizontally sliding the lower two buttons.

2. Temperature:

- Thermostat function through its **built-in temperature sensor** or by connecting an **external KNX temperature sensor**.

3. LED feedback:

- All switches have individual dimmable RGB LED feedback per touch zone which can be customized regarding to your wishes.

Demonstration tools

Would you like to see, feel and experience the high quality materials of the Tense products?

Select a non-functioning sample with 4 touch buttons in the same finish (DEM_INT..4). Or choose one of our predefined faceplates (DEM_INTMIX..).

These are all excellent sales tools to show all the available Tense finishes.

We proudly present our elegant and refined Motivity range.
You can integrate these motion detectors discretely in your interior or use them to make a design statement.

Every KNX Motivity has four functions:

1. Motion detection:

- Up to 4 different output actions are available, which can be activated independently under certain conditions (e.g. day/night);
- Switching
- Dimming
- Recalling scenes
- Sending 1 or 2 byte unsigned values

All these output actions are possible with a programmable switch-off delay and can also be brightness dependent.

A blocking object functionality and ventilation control are available as well.
Master/Slave Mode is possible.

2. Brightness detection:

- Both the Motivity Ceiling White, Motivity Line White and Motivity Plus White are equipped with a brightness sensor.

3. Temperature:

- Every Motivity has an internal temperature sensor and a thermostat function.

4. Other functions:

- Timers
- Scene module
- Basic logic functions
- Up/down counters

Motivity Wall

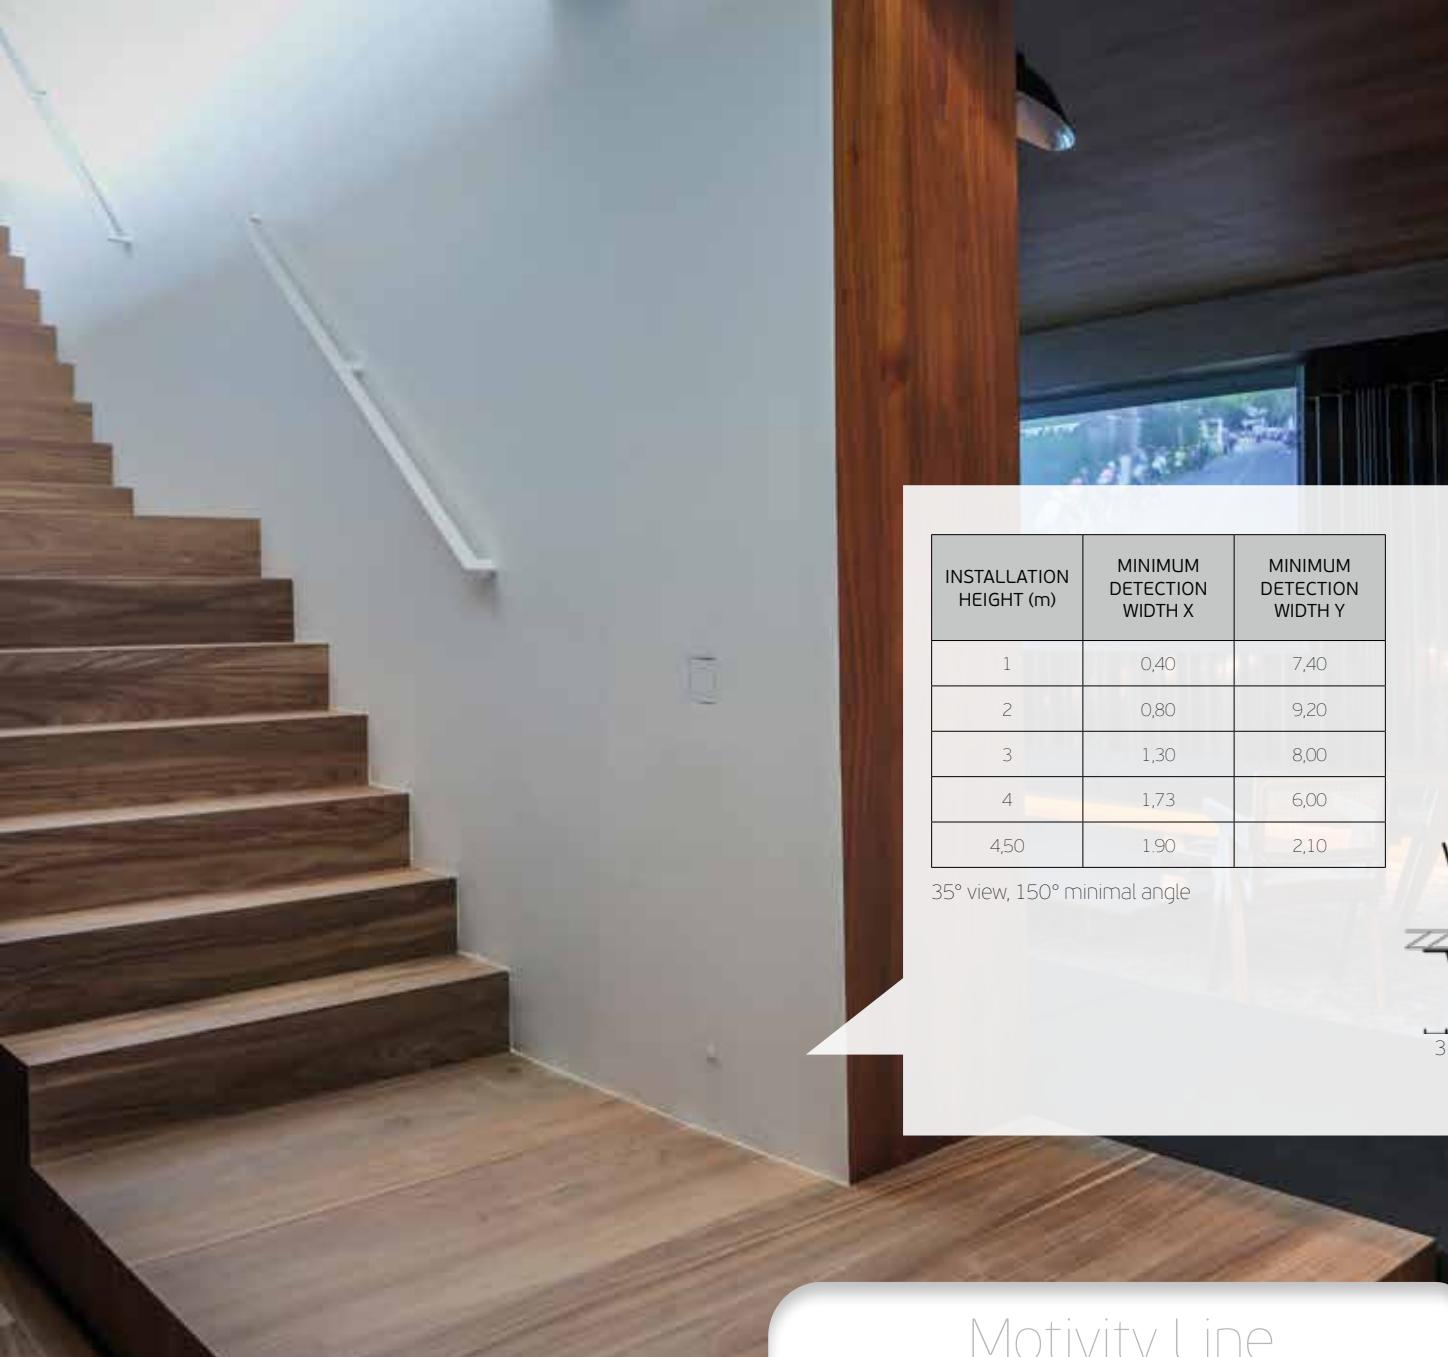

The Motivity Wall is an elegant solution for installing a motion detector in a wall and for who likes to have the same materials as the switches.

This motion detector has a built-in temperature sensor.

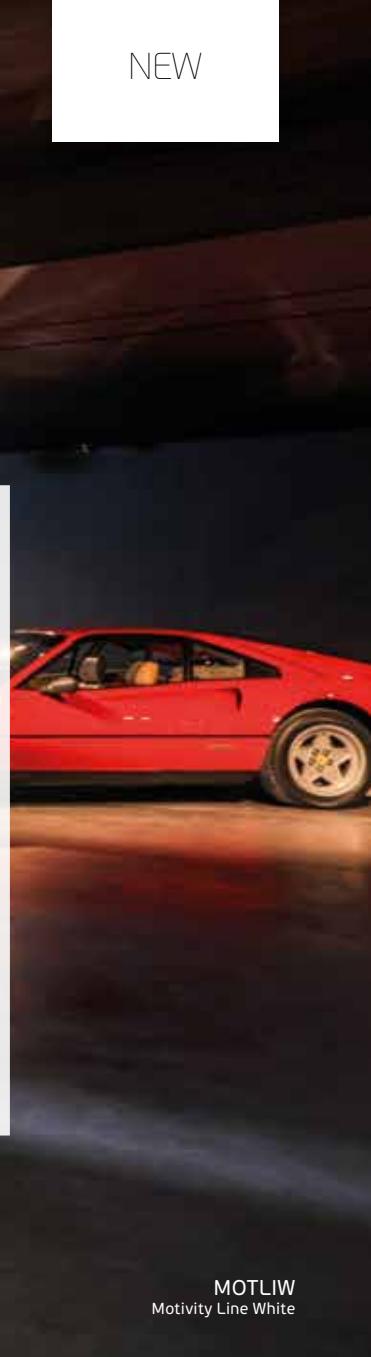

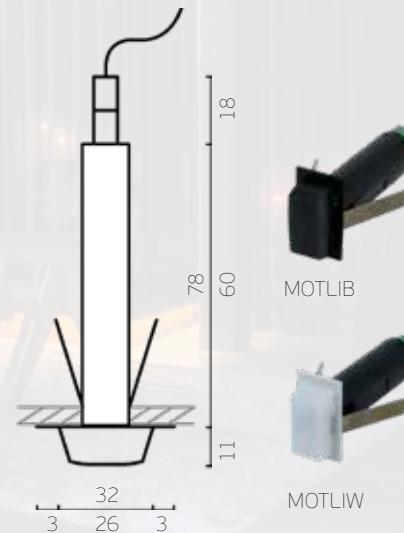

Motivity Ceiling

This motion detector is one of the smallest detectors in the world with a diameter of only 17,5 mm. The black/white plastic rosette can be cut off for a minimalist end result. The KNX Motivity Ceiling Black (KNX_MOTIB) contains a motion detector and a temperature sensor, while the Motivity Ceiling White (KNX_MOTIW) also has the ability to monitor brightness. The 12-24V DC motion detector exists in white (NOC_MOTIW) and black (NOC_MOTIB) and only supports motion detecting.

Motivity Line

MOTLIW
Motivity Line White

This motion detector is the smallest line detector in the world. The black/white plastic rosette can be cut off for a minimalist end result.

With its narrow detection zone an ideal choice for hallways and staircases. The KNX Motivity Line Black (KNX_MOTLIB) contains a motion detector and a temperature sensor, while the Motivity Line White (KNX_MOTLIW) as well has the ability to monitor brightness. The 12-24V DC motion detector exists also in white (NOC_MOTIW) and black (NOC_MOTIB) and only supports motion detecting.

Tense can now provide you with special wallboxes to be placed behind a Corian®, Stone, Ceramic or Wooden wall to create fully integrated sockets,..

This way a foolproof installation of any integrated socket is possible: with gap or without gap.

Furthermore, we can guide you with the instructions and dimensions regarding the cut-out at the backside of these materials.

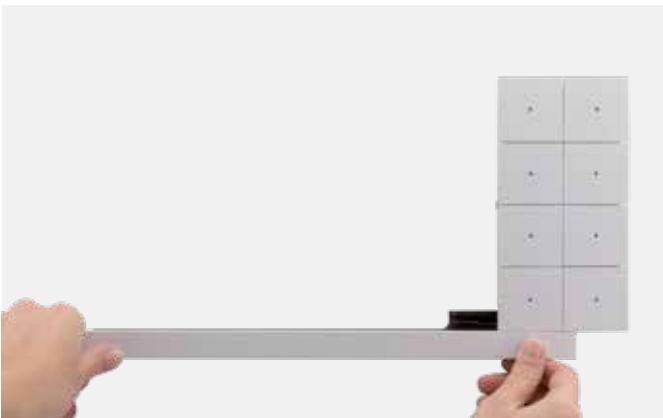

EYEINTAB8
Eyeswitch Intensity Alu Black

NEW

AVAILABLE IN
ALL METAL
FINISHES EXCEPT
CHROME

Install the included double wall box without separation vertically on the wall and fix the Eyeswitch Intensity into place.

Slide the supporting bracket into place and adjust the height of the connector accordingly to the iPad type.

Mount the iPad by sliding and clicking it into the connector.

The iPad is now ready to use in your home automation.

Eyeswitch

This handy universal iPad mount (EYE_INT...) with integrated charger (PSU_EYE100VAC240VAC) and optional LAN connection (EYE_LAN_KIT) is combined with an 8 fold Intensity switch. You can adjust the height of the apple lightning connector for your iPad. In a few seconds your iPad becomes wall-mounted. Thanks to the Intensity switch, you can directly operate your home automation, even when the iPad is not present.

If necessary, it is very easy to demount the iPad and supporting bracket while maintaining a sleek designer look thanks to the Intensity 8 fold switch. This product is available in all metal finishes except for chrome.

NEW

Hotelswitch

The Intensity switch, specially designed as a hotel solution contains four touch zones. Each of the 4 logo's on the switch act as a touch zone with each logo being a RGB LED light.

This switch is available in Glass Black and Glass White. These finishes are printed and do not use the silk screen technique as our other glass products. Slight colour variations may occur in comparison with our other glass products.

Logo's, numbers and symbols can be personalised through the printing process. The room number in the center does not light up. No cardreader included.

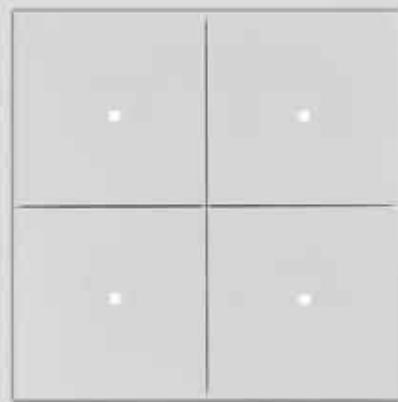

Customizations

Would you like to personalize your products permanently with inscriptions, logos and/or symbols?

All Tense finishes are suitable for lasering, engraving and printing.

Special request? Looking for a unique piece? Tense is able to **customize your products or ideas** in order to obtain a uniform look throughout your project.

TRIM_SWITCHMCWINV124_P

Trimless Switch Metal Corian Wood Invisible 1, 2, 4F Plasterboard Wall

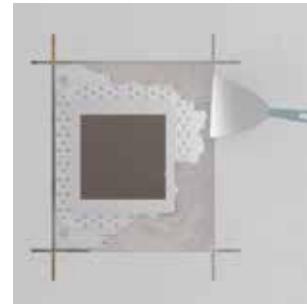

Plasterboard wall (12,5 mm)

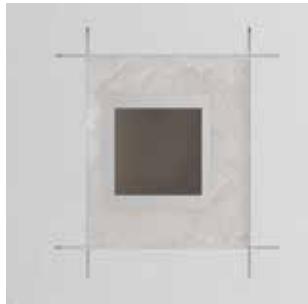

Cut a hole in the wall
and install 2 wooden planks
(dimensions: see technical data
sheet)

Screw the fixture
on the wooden planks by using
4 screws

Add fiberglass netting and
plaster up to the rounded second
level

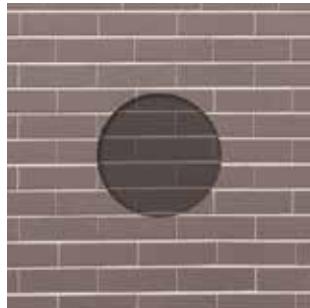

Smoothen with a sanding
machine

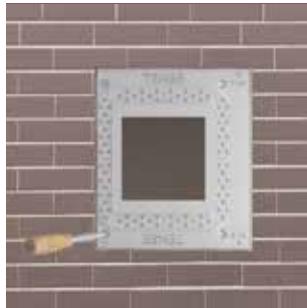

Paint the wall

Brick/Concrete wall (6 mm)

Drill a hole in the wall
(dimensions: see technical data
sheet)

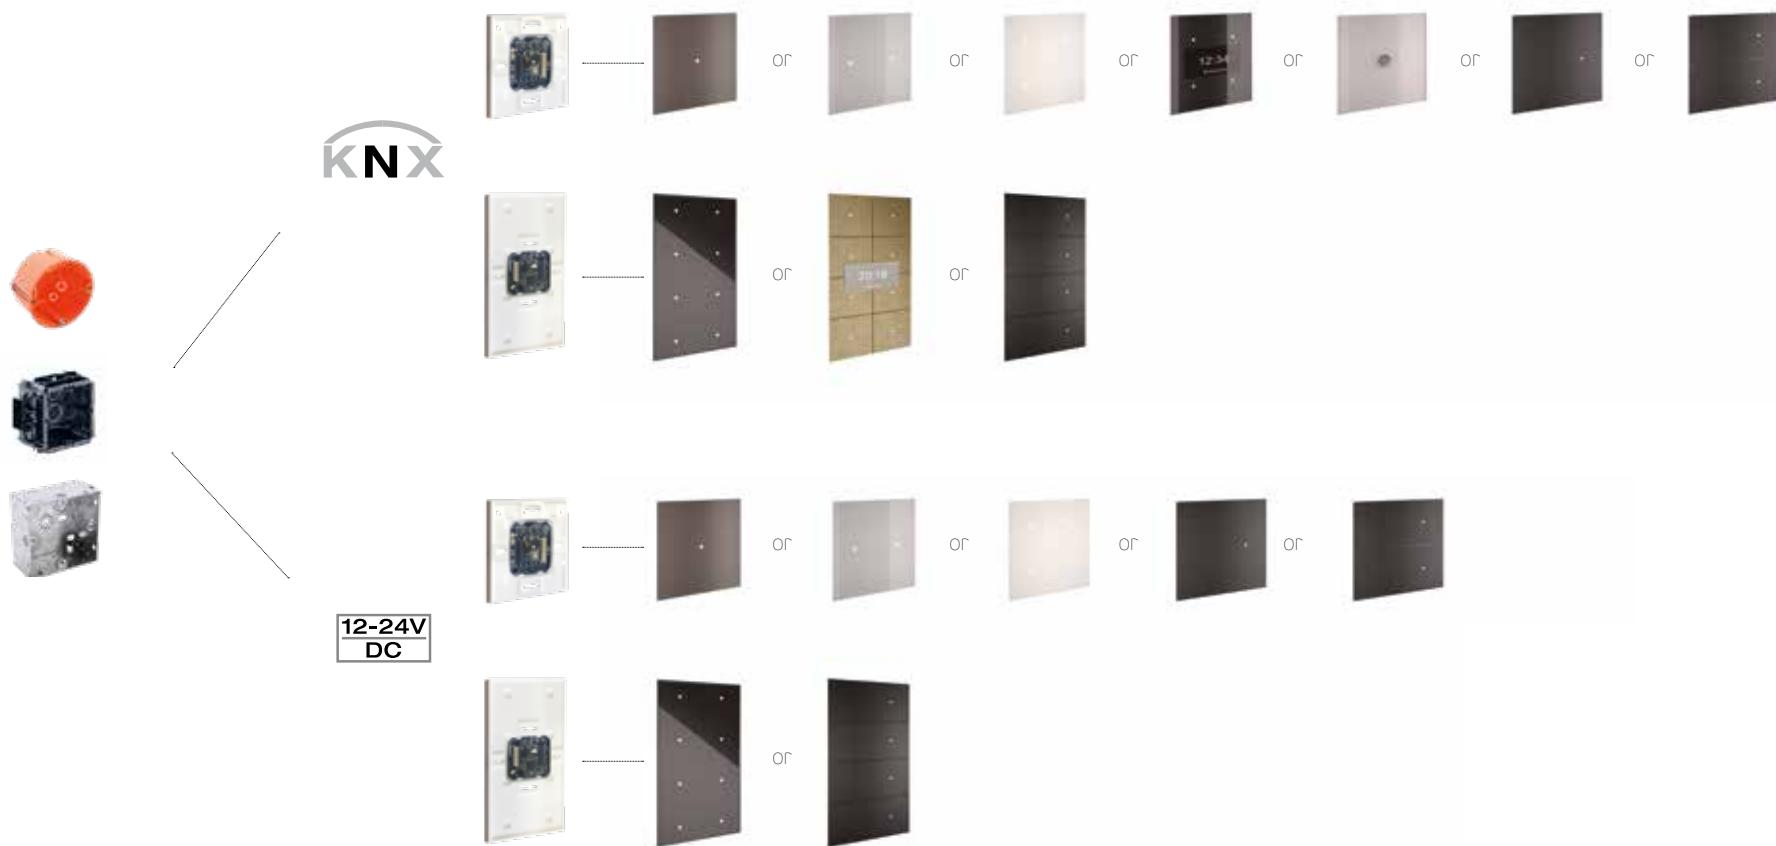

Screw the fixture on the wall by
using 4 plugs and screws

Trimless 100% recessed

All Tense products can be flush-mounted in the strong, plasterable and paintable Xillo composite fixture.

This innovative recessed solution is fast to install and easy to plaster thanks to the handy indicators and layer design on the fixture.

Xillo meets the highest finishing standards and is suitable for all surfaces (plasterboard - 12,5 mm and brick/concrete - 6 mm) which creates a recessed look in every project.

Installation & Maintenance

Tense products can be installed in a single round or square European Standard or British Standard wall mounting box. Use flat headed screws to fix the BCU to the wall.

For the 8 fold Intensity switch, 8 fold Infinity room controller and the 4 fold Intensity Landscape, only one single wall box is needed.

All Tense switches are to be cleaned with non-aggressive, non solvent based cleaners.

Marketing Case Premium

Marketing Cube

Marketing Box

Marketing tools

Marketing Case Premium (MAR_CASE_PREM): this case can be connected to the mains or to your KNX system and enables your customer/architect to touch, feel and experience 6 functioning KNX Intensity switches and 1 KNX Infinity switch. Furthermore, the demo case contains a sample of all Tense products, versions and materials.

Marketing Cube (MAR_CUBE): this cube has a battery pack which can be charged through USB. Simply push a button and your customer can experience 4 functioning Intensity switches.

Marketing Box (MAR_BOX): this handy box contains the standard material range in handy demo plates of 42*42mm.
